

Trends - Compulsory Task 1

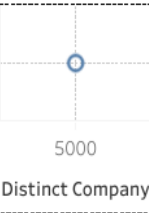

Industries with above average growth

Growth by Industry

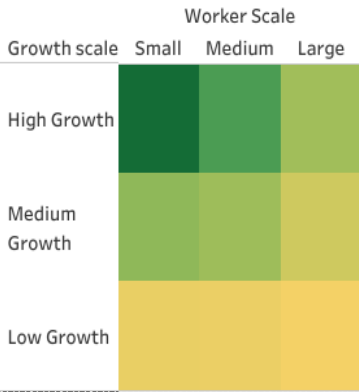

There are 5000 Distinct Companies.

This is the number of Companies in the dataset, there is no relationship between years on list and how many times the company appears on the list

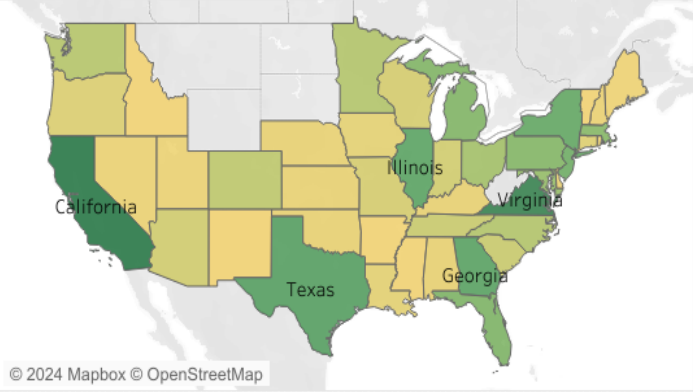

The trend shows that the fewer workers a company has, the higher the growth

Growth to Worker Scale

The states with over 45 IT services companies are highlighted: California, Virginia, Illinois, Georgia and Texas

IT Services by State

Cities that have seen the highest growth
